

Progress Toward  
Further Higher Standard

 **SIGNO**GIO

## LED Light

"Luna Vue ES", the newly developed LED light features high illuminance, energy-saving, and long service life much more than a conventional halogen light.

# Birth of New Standard

Signo G10 equipped with a LED light normally is a new standard dental unit with high performance and cost effectiveness. Good design and easy-to use functions will be supported by a doctor and a patient in the actual clinical scene.

## Table/Holder

The instrument holder united with the table is so compact that it is easy to operate. The holder can be removed from the table for cleaning.

## Holding Seat

Seat holds patient's posture securely, enhancing patient's sitting comfort.

## Table Arm

Move range of the table arm is expanded upward from the horizontal line by 20 degrees. It makes patient's coming and going easily.

## Glass Basin

Glass basin looks clean and is removable from the unit for cleaning.

## Chair

The height of the chair can be adjusted between 400 minimum to 750mm maximum. The wide adjustable range makes it possible for a patient to get on and off from the chair easily.

For ease of use, please read and follow the instructions in the attached documents and Instruction Manual.
